Singapore shares end lower as local banks decline; STI falls 1.4%

Gainers trail losers 276 to 310, after 935.9m securities worth S$2.4b change hands

SINGAPORE stocks ended lower on Monday (Nov 2).

The benchmark Straits Times Index (STI) lost 1.4 per cent or 72.91 points to finish at 5,303.83.

Jardine Matheson Holdings (JMH) led the gainers, rising 2.1 per cent or US$1.21 to US$58.88. The worst performer among STI constituents was OCBC, which fell 3.3 per cent or S$0.97 to S$28.32.

The other local banks also ended lower. DBS lost 1.9 per cent or S$1.42 to S$71.71 and UOB was down 1.7 per cent or S$0.71 at S$40.66.

Within the iEdge Singapore Next 50 Index, CSE Global was the top gainer, rising 4 per cent or S$0.035 to S$0.91, while Sheng Siong was the biggest decliner, falling 9.4 per cent or S$0.25 to S$2.42.

Across the broader market, gainers trailed losers 276 to 310, after 935.9 million securities worth S$2.4 billion changed hands.

Jefferies analysts expect DBS to remain relatively better positioned given its deposit franchise, while OCBC and UOB could face greater pressure from deposit repricing.

Addvalue Tech was the most actively traded stock with 26.9 million shares changing hands. DBS was the most actively traded stock in terms of value, with 11.1 million shares worth S$793.6 million traded.

Key regional indices were mixed. Hong Kong's Hang Seng Index edged up 0.4 per cent, Japan's Nikkei 225 fell 0.3 per cent, South Korea's Kospi gained 2.2 per cent and the FTSE Bursa Malaysia KLCI advanced 0.2 per cent.

Jefferies analysts Joanna Cheah and Ang Wei Han expect DBS to remain relatively better positioned given its deposit franchise, while OCBC and UOB could face greater pressure from deposit repricing.

In a Monday report on the Monetary Authority of Singapore's September 2026 statistics and its implications on the trio of local banks, the two analysts noted that the data reinforces their constructive loan-growth outlook, which they believe should help offset lingering margin pressures. Heading into Q3 results, the analysts added that their preferred picks are DBS, for earnings resilience, and UOB, where contained asset quality risks could pave the way for an earnings catch-up and valuation re-rating, they wrote.

The Jefferies analysts are unchanged on their "hold" call for OCBC, citing potential earnings headwinds from weaker Great Eastern contributions and moderation in wealth fees after what they described as an exceptionally strong Q2.

CURRENCIES

US dollar pulls back ahead of midterms

THE US dollar eased while the euro rose on Monday (Nov 2), as investors braced for a packed week dominated by the US midterm elections and central bank rate decisions in Britain, Australia, Norway and Sweden.

In cryptocurrencies, Bitcoin and Ether rebounded slightly after a record US$6.3 billion heist at Binance, the world's largest crypto exchange.

Traders were also watching developments in the Middle East, as growing hopes for a diplomatic resolution to the US-Iran conflict sent Brent crude futures down 3.8 per cent on the day.

The greenback eased 0.5 per cent to 101.45 against a basket of other major currencies, touching its lowest in a month.

"Risk is more on, the oil price is down and so it's slightly more risk-friendly, slightly more dollar-negative," said Kit Juckes, head of FX strategy at Societe Generale, pointing to some lightening of positions.

Americans head to the polls on Tuesday to determine whether Democrats can wrest control of Congress from US President Donald Trump's Republican Party.

Democrats are widely predicted to win the House of Representatives, but the Senate is more in doubt. October US jobs data is also due later in the week.

The euro rose 0.7 per cent to US$1.1234, shrugging off Fitch's revision of France's outlook to "negative" from "stable" after Friday's close.

Sterling rose slightly to US$1.3445, while the yen was steady at 157.64 per dollar.

Bitcoin is up 0.5% at US$78,184.11, having rebounded from a six-week low. PHOTO: EPA

Japan's real interest rates have risen recently, especially in the long and super-long zones, the central bank said on Monday in a full version of its quarterly outlook report.

The Australian dollar was little changed at US$0.7028 ahead of Tuesday's policy decision, where the Reserve Bank of Australia is widely expected to raise its cash rate to a near-two-decade high of 4.85 per cent.

Bitcoin was up 0.5 per cent at US$78,184.11, having fallen to a six-week low on Friday. Ether rose 1.5 per cent to US$2,296.44, having slid to a two-month trough last week.

Binance customers pulled US$3.64 billion, or 2.1 per cent of its assets, as the world's biggest crypto exchange resumed service after hackers stole US$6.3 billion from the platform in a security breach that the Federal Bureau of Investigation has blamed on North Korea.

The exchange moved to reassure crypto investors, saying that withdrawals were stabilising after an initial spike and that deposit volumes had remained "substantial" after what analysts believe may be the world's biggest financial robbery.

Tim Sun, senior researcher at HashKey Group, noted that while the incident "delivered a shock to market confidence, it has not yet triggered widespread panic or a massive, concentrated withdrawal by users".

"On the one hand, the capital outflows likely include normal withdrawal and asset adjustment demands; on the other hand, some investors may not have transferred their funds to other exchanges, choosing instead to disperse asset risks through self-custody wallets or similar methods." REUTERS
