ULTRA SLIM SLIDING SHOWER SYSTEM

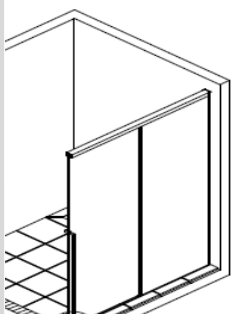

ULTRA SLIM SLIDING SHOWER SYSTEM

“Refined Luxury, Creating a Sleek, Designer Statement That Elevates Any Modern Space.”

DESIGN & AESTHETIC

Elevating your space with this sliding glass door system that embodies an ultra-slim, sophisticated & contemporary luxury outlook.

This system features an exceptionally slim profile that maximizes natural light while maintaining a refined, designer aesthetic.

LUXURY MINIMALISM

“Where Seamless Design Meets Effortless Luxury”

CONFIGURATION FLEXIBILITY

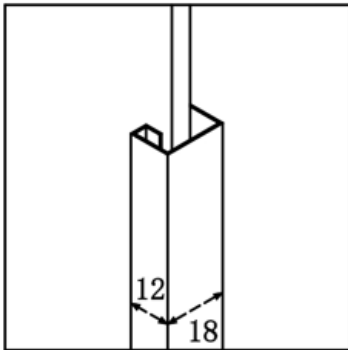

The advanced sliding system ensure effortless operation and reliability. The precision track and roller mechanism used delivers exceptional smooth gliding, allowing large glass panels to move with minimal effort. Every component is crafted to maintain stability, reduce friction, and ensure consistent performance. With Telescopic sliding option, this configuration allows multiple panels to slide and stack neatly while maximizing opening space while maintaining the ultra-slim appearance.

This system is also fully customizable with left or right configurations, allowing seamless integration into any floor plan or spatial layout.

ULTRA SLIM SLIDING SHOWER SYSTEM

PRODUCT FEATURES

The ESTRON USE Shower Screen Door is designed with a sleek, modern look, featuring a clean and contemporary appearance with a stylish matte black finish.

Ultra-Slim Profile

Minimalist thin-frame design that maximizes glass area and natural light.
